## **Details of assignment**

### **Objective**

To develop students' ability to communicate effectively in a professional setting, and to gain insights into the field of informatics from an industry professional.

### **Tasks**

1. Identify an industry professional in the field of informatics who you would like to interview. This could be someone you know personally, or someone you can contact through your network or through online resources (e.g. LinkedIn).
2. Prepare a list of questions for the interview, focusing on topics related to the professional's work experience, industry trends, challenges, and opportunities.
3. Conduct the interview in English, using appropriate language and tone for a professional setting.
4. Write a report of the interview that includes the following sections:
  1. Introduction: Introduce the professional and provide some background information on their work and industry.
  2. Interview summary: Summarize the key points and insights gained from the interview.
  3. Reflect on what you have learned from the interview, and how it has impacted your understanding of the field of informatics.
  4. Conclusion: Provide a conclusion that summarizes your interview notes and any recommendations or insights you gained from the interview.
5. Submit the interview transcript and report for feedback and discussion in class.

### **Grading**

- Interview questions and preparation: 20%
- Interview performance: 40%
- Report: 30%
- Class participation and discussion: 10%
